Manufacturer Provided Description

With its attractive sleek silhouette and a deck plan optimized for long cruises, the Oceanis 48 is perfectly proportioned. Important options in terms of space organization and ergonomics distinguish her from others. She urges you to set off on long cruises and experience very comfortable stopovers.

EXTERIOR DESIGN

The Oceanis 48 has a mainsail arch and centred mast making her well-balanced and her hull offers great stability and comfort at all speeds. This is an important step in the combination of speed, safety and flow when living on board.

INTERIOR DESIGN

With the scope for a layout of up to five cabins, or three cabins with a spacious forward owner suite, the Oceanis 48 also cleverly places the accent on shared living spaces. The interior is bathed in a wonderful amount of light from the large hull portholes and the ambiance can be either contemporary light oak or a more traditional mahogany.

EVERY LATITUDE IN THE CALL OF THE OCEAN

The Oceanis 48 is a distillation of innovative developments making her safe, fast and incredibly comfortable. She is open to all programmes, even the most ambitious ones.

45° COMPANIONWAY

The 45° companionway is an important characteristic of the latest generation of large Oceanis yachts. It connects the huge cockpit with the boat's interior, having a considerable impact on ease of movement and lifestyle on board.

MASTER CABIN

The forward cabin is a genuine suite fitted with an Italian-style shower. It has intelligently organized storage and attractive trims. The generous amount of space promises a real feeling of well-being.

PERFORMANCE PACK

The performance of a set of D4 sails, designed specifically by the sailmaker Incidences for the Oceanis 48, is optimized by the German System, with which you can trim all the sails from the helm station. Beneteau's partner for over twenty years, this French sailmaker of international renown is one of the chief references in competitive sailing circles.
